

## AUSTRIA DECLARES WAR ON SERBIA

### General European War Not Expected

#### WAR DECLARED.

Vienna, July 28.—Austria today declared war on Serbia. The declaration was issued immediately after Austria rejected England's proposal to suspend hostilities pending mediation.

#### Later.

Vienna, July 28.—Formal declaration was held back until the Austrian army is mobilized and probable Austrian army hurled across the border at same time the declaration is made.

Belgrade, Serbia's capital, is expected to be in the hands of the Austrians before night. The Serb government has already fled to Nish. The International News Service learned this afternoon that all road and telegraph communication between Austria and Russia is cut off.

London, July 28.—Prospects of avoiding a general European war are brighter today, although Germany has rejected England's proposal for England, Germany, Italy and France to mediate Austro-Serbian differences and hostilities have actually begun. Belief is general that fighting will be confined alone to Austria-Hungary and Serbia. This belief is based on Austria's declaration that she has no desire to annex Serbian territory.

Austrians captured two Serbian ships loaded with munitions of war today and also defeated the Serbs in a small battle fifty miles from Belgrade.

Mobilizing to Repel Attack from England.

Berlin, July 28.—German home fleet has been mobilized so as to repulse any attack from England.

#### OF LOCAL INTEREST.

Some People We Know, and We Will Profit by Hearing About Them.

This is a purely local event. Not in some faraway place. It took place in Dothan. You are asked to investigate it. Asked to believe a citizen's word. To confirm a citizen's statement. Any article that is endorsed at home is worthy of confidence. Than one you know nothing about.

Endorsed by unknown people. W. D. H. Black, merchant, 719 S. Appletree street, Dothan, Ala. says: "My experience with Doan's Kidney Pills has been such that I do not hesitate to confirm the statement I gave some years ago recommending them. My kidneys were out of order. I had backache and pains through my limbs. When I saw Doan's Kidney Pills advertised, I got a supply at McCallum's Drug Store. They made me well."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

### BELIEVE STRIKE OF R. R. MEN INVERTABLE

Chicago, July 28.—Representatives of fifty-five thousand engineers today are expected to submit final answer on mediation to federal mediators who are endeavoring to avert a great railroad strike.

Only one point to be gained by the mediators, and that is that men consented to continue negotiations. Employees express opinion that a strike is inevitable.

Try an order of our pure pork sausage. Dothan Market. Phone 484. 129

### SALVATION ARMY PICNIC

Automobile Owners, Won't You Take a Load of Children to the Salvation Army Picnic Tomorrow?

The Salvation Army plans to give about fifty children a picnic out at Richards' Springs tomorrow, and everything is in readiness with the children all expectancy over the good time they will have in the woods.

But one thing is yet lacking to make the picnic a success, namely: Automobiles to take the children out and bring them back.

Now, you people who own automobiles are ready and willing to do a kindly act, but have just not thought about it, so, go to the telephone right now and call Adjutant Grimshaw at 191 and tell him you will have your car at the Salvation Army headquarters on East Main street in the morning at 8:00 o'clock to take out a load of children and return for them in the afternoon.

You will not get any money for it, but when you have seen the bright, happy faces of the children you will have helped enjoy a day; you'll have something better than money.

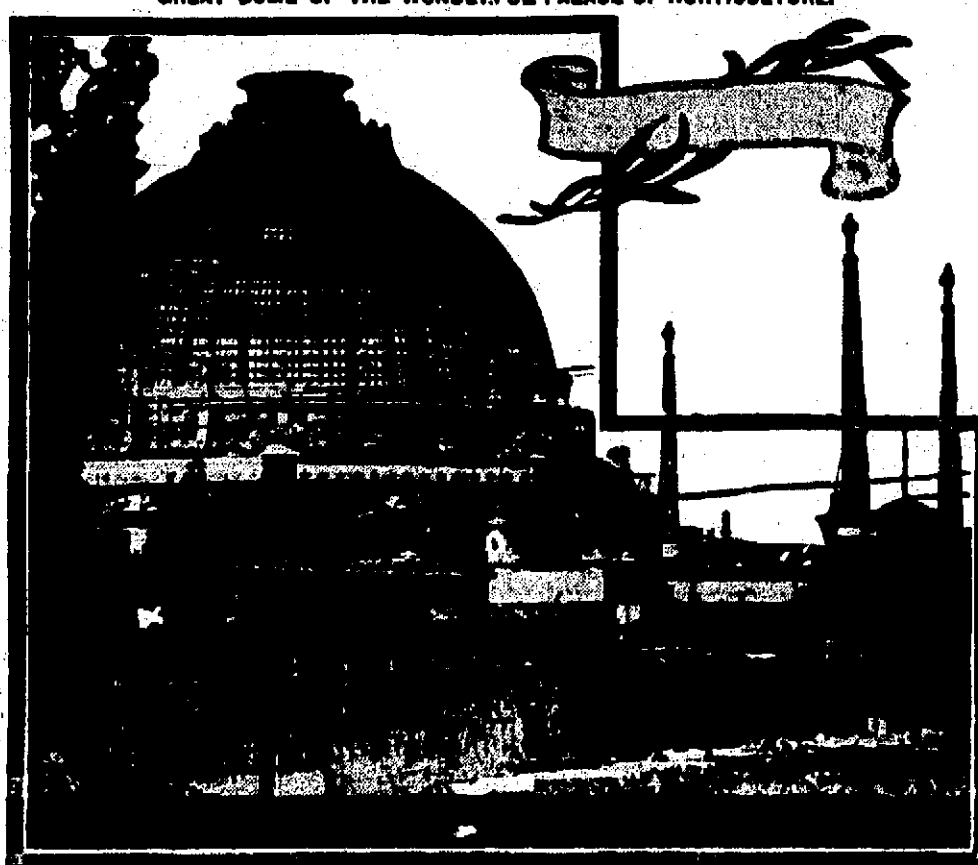

Don't forget it. The time is short, tomorrow morning at 8:00 o'clock, Salvation Army headquarters, East Main street.

But phone Adjutant Grimshaw now that you are coming, and relieve his mind.

#### REMOVING DIRT POH

Dirt taken from the old power station site is being removed by W. C. Picher to fill in the low places around his gin. The workmen are making good headway preparatory to digging an excavation for the foundation of the city hall building. The site was surveyed and measured by City Engineer G. Z. Heller yesterday.

GREAT DOME OF THE WONDERFUL PALACE OF HORTICULTURE.

Copyright, 1914, by Panama Pacific International Exposition Company.

A view of the Palace of Horticulture, showing completed pylon with decorative sculpture in position. The minor domes are to carry an arrangement of vines and flowers that will form a screen for the lights. The main dome is 186 feet in height and 152 feet in diameter, being the largest hemispherical dome in the world. The Panama-Pacific International Exposition will open in San Francisco in February, 1915.

### CORONER SAYS MRS. ANGLE CAUSED DEATH OF BALLOU

Bridgeport, Conn., July 28.—Finding that Waldo Ballou, a Stamford business man and politician, came to his death as the result of criminal acts of Mrs. Helen Angle, a pretty divorcee, Coroner Phelan made a report today.

The coroner declares Mrs. Angle's story that Ballou's death was accidental may be true but circumstances demand a full investigation by authorities.

COTTON GIES DOWN, WHEAT GOES UP RESULT OF WAR  
New York, July 28.—Cotton dropped twelve points and wheat went up six cents as result of war.

#### W. O. W. TONIGHT.

The Woodmen of the World will meet tonight at 8 o'clock in the hall over Nix Drug Store. Regular business and several candidates to receive the degrees. A large attendance is looked for.

### PALACE TODAY

"THE CONSPIRACY" or the \$4,000,000 Dowry,  
In four reels  
Admission 10 & 15c  
Music by Miss Matthews  
—TOMORROW—  
"PERILS OF PAULINE."  
10th Episode.

### FIVE KILLED IN GRADE CROSSING ACCIDENT

Chicago, July 28.—Coroner and railroad officials began a rigid investigation into the grade crossing accident last night when an automobile was run down by Chicago North western train near Ravinia Park, in which five were killed and three injured. The dead are James Benjamin and wife; William Bowring and Edmund Wunderle, all prominent business and society people, and Matthias Tert, a chauffeur. Miss Alice Barker was carried a mile on the locomotive pilot and escaped with bruises. The party was going to the opening of grand opera. Accounts of the cause vary.

#### QUITS CONGRESS TO REPAIR VITAL ENERGY

Washington, July 28.—A laugh was caused in the house when Representative Sherwood, a veteran member, requested an "indefinite leave of absence to repair vital energy."

Sherwood has a hot campaign for renomination and re-election. The request was granted.

#### KILLS SELF WHEN WIFE DANCES AS HE CHURNS

Anderson, S. C., July 28.—When his wife told him that he had churned the buttermilk long enough and could quit, it so infuriated Ham Roberts, of Pendleton Township, that he got his shotgun and followed by his frantic wife, went to the barn and killed himself, using a shingle to push the trigger. Roberts was about 30 years old, and was a prosperous planter of Anderson county.

### BOY SCOUTS TO PLAY KATZENJAMMERS

The Katzenjammers will appear soon at a local theatre under auspices of the Boy Scouts of Dothan, which organization has been busy with its band of music.

The identity of those who will play the various parts form the nucleus of the plot. Assurance have been given that there is a plot, but it is suspected that the plot is not deep. Therefore there is no danger for little children.

Hans Fritz, the Captain, the Inspector, and the Old Lady will be represented by local comedy artists, whose names will be withheld. Patrons will be given slips at the door which will entitle them to a guess as to who the mysterious players are. Those determining the identity of the Katzenjammers will be awarded certain prizes, to be decided upon later.

Can you guess who the Katzenjammers will be?

#### GIRL JILTED, BURNS HERSELF TO DEATH

Tampa, Fla., July 28.—Spurred by the man she had expected to wed, Matilda Cucha poured kerosene on herself, applied a match and made herself a burned offering to love. She died today several hours later. Her brother went to the restaurant where Manuel Alvarez, her lover, was eating supper, called him out and shot him twice. He will die. Alvarez and the girl quarreled yesterday, it is said, the man telling her that he could not marry her.

### Villa Is Stumbling Block To Peace

#### MADAME CAILLAUX AN EXPERT FAINTER

Paris, July 28.—Madame Caillaux fainted in court again today while Attorney Chenu for the prosecution was making plea for her conviction and death on the gallotine. The collapse came when Chenu pictured her as a cold blooded assassin and demanded that she be beheaded.

#### CONTRACT LET FOR P. O. AT CLARKDALE, MISS.

Washington, July 28.—Secretary McAdoo today awarded the Callahan Mandel Company, of Chicago, the contract to construct a postoffice at Clarkdale, Miss., for \$33,039.

### COMMITTEE TO MAKE CANVASS

Plans Being Made for Housing of Sunday School Delegates Here Next Year.

For the purpose of making a house to house canvass to determine the number of people who will take in delegates to the annual convention of the Alabama Sunday School Association in Dothan, April 7, 8, 9, next year, a special committee of three was appointed by the Housing Committee at a meeting held at the High School building last night.

A card system for the placing of the delegates in Dothan homes will be worked out by the committee appointed for this purpose, and efforts will be made to have as many as possible accommodate one or more delegates. The committee is J. V. Brown, T. W. Harris and E. O. Jones. A publicity committee with O. L. Tompkins, J. M. Newton, and J. Ray Jones, was appointed.

The housing committee, which met last night, is composed of the following members: J. V. Brown, chairman; E. C. Bennett, F. H. Culver, W. C. Strickland, E. O. Jones, T. W. Harris, J. Ray Jones, J. H. Brown, R. C. Helms, P. O. Chaudron, O. L. Tompkins and J. M. Newton.

#### HOG CAUSES DEATH OF DRIVER OF AUTO

Indianapolis, Ind., July 28.—Harry L. Crawford was killed and John White was seriously injured today when an automobile in which they were riding went over a six-foot embankment north of this city and turned turtle. Crawford turned out of the road to avoid running over a hog that was in the path of the automobile, and lost control of the big machine, which was going about 20 miles an hour. Phone 451, for some of those extra fine pure pork sausage. Dothan Market. 129

Washington, July 28.—Villa appears to be the only stumbling block to peace in Mexico. It is believed on all sides that the conference between representatives of Carranza and Carbajal will come to terms for transfer of to government to constitutionalists. Nearly the entire rebel Junta here has gone to Mexico to participate in the triumphal entry of the constitutionalists army into the capital, which is expected by the middle of August. Reports from Juarez say Villa will take 20,000 men with him to capital instead of 5,000 as specified in Carranza's invitation. With this army at his back he is expected to dictate any terms he wishes.

#### RAIDED TREATMENT CURE BLIND WOMAN

Reading, Pa., July 28.—To be able to see her children again after being denied sight of them during five years of almost total blindness caused by hard work in a shirt factory to support them in the happy lot of Mrs. Emma Epler, of Mahoning. Her sight was restored through radium treatment by Dr. John Ego, of Reading.

#### FOOTSTONE INQUEST INTO DEATH OF DUBLIN CITIZENS

Dublin, July 28.—Fearing an outbreak of rioting, authorities today postponed until Thursday the inquest into the death of a citizen and of Sunday's shooting. Despite orders from the government, armed Nationalists paraded the streets today and there was an attempt to disarm them. Feeling continues to be bitter on all sides.

#### BUILDING PHOTOMONTAGE

We offer lease to second story about 48 by 80 feet on building now in course of construction, on North St. Andrews street. See us quick. 129

## HOUSTON COUNTY'S SOIL SURVEY.

Through the efforts of Secretary Cobb of the Chamber of Commerce Houston county will have the benefit of a soil survey in the near future.

Mr. Cobb had up the matter of soil survey with Judge Clayton before he resigned as Congressman from this district, and Judge Clayton was very anxious for the surveyors to get into this county.

These surveys are made by surveyors from the United States Department of Agriculture, working in conjunction with state surveyors and it is quite likely that they will get into Houston county some time this fall.

These surveyors are of great benefit to the farmer, showing him just the crops to plant on certain lands and where there is a deficiency of certain soil elements advising the necessary fertilizing properties to get greatest yields.

The Department of Agriculture says of this work: "A soil survey is primarily an inquiry into the fundamental possibilities of a region, insofar as that is determined by the character of the soil, and the information obtained through these surveys is of value both as a basis for other lines of agricultural investigation and endeavor."

## DOCTOR'S PRESCRIPTIONS IN PLAIN ENGLISH.

The New York Journal wants the doctors to write prescriptions in plain English, and thinks when a bottle of medicine with poison in it goes out to a patient it should be labeled poison.

The Journal thinks that the great majority of drug heads have been created innocently, carelessly, or otherwise by doctors. In regard to prescriptions in plain English the Journal has this to say:

"Every doctor should be compelled to write his prescriptions plainly, so that the patient or the father or mother or husband or wife would know what drugs the prescription calls for.

"The mere fact that the doctor is quite content with himself and his superior wisdom is not sufficient.

"He should be compelled to write out in plain English the name and character of the drug he prescribes.

"He should not be allowed to insert any poison in a prescription without writing plainly 'Poison' on the prescription.

"Mystery and gloomy superiority are no longer part of the stock in trade of reputable physicians. Their work is based on common sense, prevention, and most of them follow the preaching of Osler, who denounces the unnecessary administering of heart stimulants and narcotics.

"The individual who pays the doctor has a right to know what the doctor is giving him, and the doctor has every other should be compelled to use plainly the word 'Poison' when he dispenses poison."

## RABIES AND DOG-DAYS.

The coming of the "dog-days," especially if the season happens to bring with it one or more prolonged heated periods, attracts the attention of the public generally much more to the danger from rabies than do definite reports of the spread of the disease at other seasons of the year, which ought to arouse solicitude. Boards of aldermen, city councils and town officials of other kinds wake up from the most absolute lethargy with regard to the disease at this time, and especially in the smaller towns and country places, pass ordinances and revive regulations requiring dogs to be muzzled while on the streets. This is all the more amusing because the term "dog-days" has no reference to dogs, but is borrowed from the Romans, who called Sirius, the brightest of the fixed stars, the dog-star. At one time during the Roman epoch, the rising of this star coincided with the rising of the sun in the latter part of July. The twenty days preceding and the twenty days following this conjunction were for the Romans dog days, the days of the dog—or the dog-star. Rome had its hottest months usually during this period; therefore the time was dreaded and came to have the reputation of an unhealthy season, though not with any special reference to the dogs of Rome. In our day the popular meaning of the "dog days" is that dogs are especially likely to go mad at this time. The consequence is that, while the animals are made uncomfortable by nose muzzling, their discomfort is greatly added to by the foolish dread which keeps people from giving them water or caring for them properly. Rabies may occur at any season of the year; the actual statistics show greater frequency of the disease during the winter months than during the summer months. It is most common in the early spring, and March and April would be a much better time to select for "dog-days" in the popular sense than the weeks of July and August that have by misapprehension come to be looked on as the special period of danger.

The recent Seattle epidemic shows how much of real danger there is from this disease when it gains a foothold because of neglect of proper precautions. Surgeon Lloyd of the Public Health Service recently reported that up to the beginning of June there had been 341 cases of canine rabies in the city of Seattle since the outbreak of the thin the disease had not been observed in Seattle.

This is what may occur practically anywhere in this country if the infrequency of the disease beguile over confidence and neglect. Altho we disapprove the infliction of unnecessary suffering on animals, says The Journal of the American Medical Association, the popular dread of dogs, during the misunderstood dog-days affords to physicians an educational opportunity too good to be lost. This is the time when they may profitably emphasize the need for special precautions with regard to the spread of rabies. The problem of the control of rabies is mainly the care of stray animals and of those that have no proper owner, but live more or less on the bounty of the community. Careful registration of animals and the destruction of those for which no one would assume responsibility to the extent of paying a yearly license would greatly limit the disease. The problem is simpler in England, but the success in practically obliterating the disease for the last twenty years in that country shows what can be accomplished. We need intelligent, persistent scientific interest to prevent the spread of the disease and not the annual attack of

## NOT LIFE OF TRADE.

Anniston Star.

Two of the leading merchants of this city were in The Star office a few days ago talking about the increased efficiency of their advertising today over former years and of its decreased expensiveness at the same time. They were discussing the advantage of one daily in a town of Anniston's size over two, and W. P. McCartney, who devoted several years of his well known ability to an effort to make the Hot Blast pay here in competition with The Star, seems to have about the same idea as that advanced by the local merchants.

Mr. McCartney is now editor and proprietor of one of Alabama's brightest weeklies at Ramon, a growing town in the Wiregrass and seat of Geneva county. In this week's issue of his paper, Mr. McCartney says:

"The recent change in the management of the Selma Times, the second within a short period of time, indicates that the old adage, 'Competition is the life of trade,' has its exceptions. Sometimes competition is overdone, and in that case it is the death of trade. In no business is this truer than in the news paper field.

"In most mercantile businesses, the overhead expenses can generally be reduced to meet slack times to a point where the receipts balance the outgo, but with a newspaper this is not so. Highly skilled workmen must be retained during dull periods, expensive machinery is eating up money in depreciation and insurance even when used but part of the time, the elaborate and expensive system of collecting news must be maintained at all hazards if the newspaper is to continue publication.

"A territory which would afford a comfortable revenue to one newspaper will not support two. At a profit, because the subscription price does not begin to cover the cost of publication, and advertising patronage is limited by the amount of appropriation set aside by each business house. There are dozens of places in Alabama alone where one paper, daily or weekly, could give

a living to the owners, but where two papers are struggling for existence. Especially is this true in the smaller towns and cities.

Selma, Gadsden, Huntsville, Tuscaloosa, Anniston, Dothan, Opelika, Troy, the Decatur, are all places where one good paper would flourish and give the public better service, while two will eat out a miserable, hand to mouth existence, usually ending in bankruptcy for one or possibly both. The same condition exists in the weekly field to a certain extent."

## Dog Days.

Blind snakes.

Forty days rain.

Houston county will hardly make enough cotton to feed the weevils.

Texas will buy here legally awhile longer.

The wicked flea (bites) when no man pursueth.

If at first you don't succeed, look for a return engagement.

Behold, there was a certain man voted for a whiskey administration who daily lifted up his voice beseeching it to give him prohibition. The last state of that man is worse than the first.

Cousin Charles must have been operating in Texas, too. They voted for "peace" out there.

"Over the hills to the poor house" is now made in a touring car.

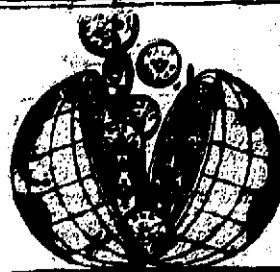

Atlanta will never be able to get Birmingham's nerve.

"I don't want to put you to any trouble," says the fellow who always does.

Fleischmann's Yeast, coming in fresh every day. Usery Grocery Co.

## WORK AT COURT HOUSE.

Writing and plumbing portions of the court house was being done today by Frank Moseley, who also has the contract to do similar work at the county jail.

Put your money in. Mother Earth—it's the safest, soundest investment you can find, especially such parcels of realty as we name below:

22.  
40 acres fine level red land, 5 miles from Dothan and 3 miles from Webb. Four room house and 35 acres in cultivation. Price \$1,300. Terms.

60.  
82 acres 5 miles southeast of Slocumb, 60 acres in cultivation, one nice seven room celled and painted house, one four room tenant house. Splendid level land and place in fine shape. Price \$3,250.

8.  
80 acres 3 miles from Dothan on new Campbellton road. About 30 acres in cultivation. Big bargain at \$1,500.

61.  
47 acres 5 miles east of Dothan, 22 acres in cultivation, one mile from graded road to Ashford. Price \$1,250.

91.  
100 acres 11 miles west of Dothan and two miles north of Jelico, 20 acres open, 3 room house and good pump well. Price \$650. One hundred and fifty dollars cash and balance in one, two and three years with 8 per cent interest.

83.  
80 acres 10 miles southeast of Dothan on graded road to Cottonwood. 70 acres open, six room house. Fine level land. Price \$30 per acre.

20.  
80 acres of good land 10 miles west of Dothan, 55 acres in cultivation, two tenant houses. Forty acres of place worth more money than price of whole place. Price \$1,250. Terms.

91.  
30 acres one mile northeast of Dothan, 28 acres in cultivation, 12 acres of timber. Lies well. No dwelling, but good corn crib and smoke house. Price \$1,200.

92.  
40 acres seven miles west of Dothan, 31 acres in cultivation, 4 room house, splendid bargain at \$900.

96.  
360 acres 5 miles northwest of Dothan, 175 acres in cultivation, four settlements and very fine chocolate and gray land, running water on place. Best bargain at all at \$20 an acre.

7.  
119 1/2 acres two miles southeast of Dothan on Columbia and Geneva road. 45 acres open, balance in timber, 3 room house. Price \$3,100. Terms.

15.

## MODERN WOODMEN OF AMERICA

CA, EDGEWOOD CAMP, NO. 1688

Meet first and third Thursday nights.  
H. R. McChesney, Consul.  
S. P. Wilkes, Clerk.

## BIRTHDAY PICNIC.

On the 26th day of July, 1914, Mr. Geo. L. Harrell who resides in the Cool Springs community, four miles south of Ashford, Ala., celebrated his 70th anniversary by inviting relatives, friends and neighbors to visit him and his faithful companion at their home and take dinner and make music etc.

The guests began to gather early in the morning and by 9 o'clock the company had swollen to about 33 in number. There was present a fine string band and they amused the people delightfully.

Mr. Harrell, covenanted with his good wife, nee Miss Ann Kay about 45 years ago to make the journey of life together and share each other's burdens and tribulations which they have well done up to this good time. They have reared a nice family of girls and boys all of them are married off and doing well. The children were all present but two—Mr. W. H. Harrell and his sister, Mrs. Willie Worrell.

This is hoping that Mr. Harrell and his wife may live to see many more birth days and at last be wafted away into the happy beyond. A Friend

## ATTENTION BOY SCOUTS

All Scouts are commanded to be present at a meeting Wednesday evening at the High School building, at 7:30 o'clock. Important business.

ALBERT LISENBY,  
Acting Officer.

### MY PLAYERS.

Let me true enough to meet each honest eye,  
Yet if a friend whose sorrowed heart has been undone  
Asks me for comfort where in truth there can be none,  
Then let me grasp his groping hand—and kindly lie.

And if my neighbor does those things I think are ill  
Let me not judge! Who knows what tangled taunting skein  
Fate may have woven to have meshed his heart in pain—  
Would I have smoothed the evil knot with half his skill?

Since I must play the game of life  
This is my prayer,  
Though I may love, let me preserve a smiling face,  
Let me not scorn the weak who falter in the race;  
Let me be merciful—let me play fair.  
—Caroline Reynolds in Los Angeles Graphic.

**THOUGHTS FOR THE DAY.**  
Living words will cost but little  
Journeying up the hill of life,  
But they make the weak and weary  
Stronger, braver, for the strife  
Do you count them only trifles?  
What to earth are sun and rain?  
Never was a kind word wasted  
Never was one said in vain.

**TUESDAY—**  
Mrs. Ray Jones entertains the D. A. C. Club this afternoon at four o'clock.

**A MEMORIAL TO LATE MAJOR BUTT—**  
Exchange—

Speaking of memorials to the late Major Butt, there is one very beautiful one, of which his friends may not know. The largest camp for the Boy Scouts, and one of the most complete in this country, is situated on the Chesapeake Bay, and is named the "Archibald Butt Camp." Here the Boy Scouts come by the hundreds each summer and learn all manner of woodcraft and camp lore. They also have special courses of instruction, so many of the boys have to spend the summer preparing for college and University. Grape Fruit, new crop, very fine. —Unity Grocery Co.

school in the fall. One interesting feature of the camp is the life-saving department, where the boys are taught how to save others from drowning and how to resuscitate a person who is nearly drowned. It is a wonderful camp, and one can imagine no more fitting tribute to Archibald Butt than to name for him this camp, where boys are trained in mind and body to be splendid men, and no name that could have been given to the camp would have proven a greater incentive to the boys, as they think of his life and death, and see how his memory is honored by his fellowmen because he was an unselfish man, as well as a brave soldier.

Mrs. Ed Hawkins has arrived in the city to join her husband who has recently been made manager of the Southern Cotton Oil Company. They will be at home to their friends at the residence of Mrs. Will Flowers on North Oakton street.

Miss Bernice Rosenberg of Albany, Ga., is the guest of Miss Minnie Crine.

Miss Willie Johnson has returned to her home in Opelika, after a short visit to her sister, Mrs. Chas. Grantham.

Mrs. Tom Trawick and children Irma and J. T., have returned home after a visit to relatives in Maryland.

Mrs. W. A. Boyett is at home after a visit to Blakely and Ft. Gaines, Ga.

Mrs. Tom Webb is visiting relatives in Montgomery.

Mrs. G. S. Jackson and little son, Jack, Jr., have returned from an extended stay at Panama City.

Mrs. N. F. Chours, after an extended visit to relatives in Winchester, Ky., has returned to her home in this city.

Miss Weetie Fortner left Sunday on a two weeks' visit to her uncle, Dr. Bradley, at Elba.

Grape Fruit, new crop, very fine. —Unity Grocery Co.

Mrs. Percy V. Pennybacker, president of the general federation of Women's clubs, will speak at Chautauqua, N. Y., in August. Other prominent speakers during the meeting will be Mrs. Maude Ballington Booth, who will give a talk on "New Hopes and Plans for Our Country's Prisons."

## FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With **Thedford's Black-Draught.**

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught.

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N. C. 123

**WHAT'S THE DIFFERENCE IN A FORD CAR AND AN AUTOMOBILE?**

Teacher—Johnnie, into how many classes are motor cars divided?

Johnnie—Two, Fords and Automobiles.

Teacher—Correct. What is a Ford?

Johnnie—A Ford is a scientifically constructed four-wheel motor car intended as the safest and surest mode of travel at the least cost.

Teacher—Does it fulfill the purpose for which it is intended?

Johnnie—It does.

Teacher—What can you say of a day's outing in a Ford?

Johnnie—It consists of a continuous spin over hill and vale, full of pleasure, fun and satisfaction.

Teacher—What are the necessities to take a day's outing in a Ford?

Johnnie—A little gasoline in a tank, a little oil in the engine and a little water in the radiator, and your wife and babies in the car.

Teacher—Why are Fords more cheaply and satisfactorily operated than automobiles?

Johnnie—Because they are me-

chanically perfect, free from cumbersome adjuncts; in other words, they are simply simplified.

Teacher—Now, What is an automobile?

Johnnie—A car usually of heavy weight with big, expensive pneumatic tires, high rated horsepower made up of storage batteries, magnetic clutches, a network of wiring, automatic pumps, air-pressure pumps, oil pumps, oil feed pipes, light oil feed, speedometers, clocks, volt-meters, aerometers, air pressure gauges, shock absorbers and other mechanical conglomeration intended as a medium of separating the rich from their cash.

Teacher—Does it fulfill the purpose for which it was intended?

Johnnie—It used to—but not now.

Teacher—What can you say of a day's outing in an automobile?

Johnnie—It consists of break-down, bog-downs, lay-outs, and blow-outs.

Teacher—What are the necessities to take a day's outing in an automobile?

Johnnie—Four big extra casings, extra tubes, an electrician, a mechanic, an able-bodied chauffeur, a check book and a good account with your local bank; and you will need to frequent gasoline stations, telephone stations and garages.

Teacher—Why are automobiles more expensive to operate than Fords?

Johnnie—For the same reason that it is impracticable to operate locomotives with pneumatic tires on dirt roads.—J. I. Chipley.

### SWIMS MILE, HANDS AND FEET MANICURED

New York, July 28.—With his hands and feet manicured, Henry Ellensky, a long distance swimmer, swam through the dangerous currents of Hell Gate. He covered the mile in 38 minutes.

Why are K and P the most important letters of the alphabet?

Because you couldn't have beef or pork without them.

## HERE'S THE PROOF OF PALM BEACH COUNTY'S SUPREMACY!

In discussing the merits of the Minnala Farms Company's lands, we have frequently made this statement:—

**"The Quality of the Grape Fruit Grown in Palm Beach County is Higher Than Any Other in the State of Florida."**

We limited this statement to Grape Fruit, because we had examined the United States Agricultural statistics and found that Palm Beach Grape Fruit brings the highest price per box average, than any other county in the state; on further examination however, we find that the net value per crate of the fruit of all kinds grown in Palm Beach County is higher than the average of the entire state, except on bananas and limes.

In proof of this statement, we submit the following statistics from the Agricultural Bulletin of the State of Florida for the years of 1911-12, the latest compiled:

Fruit	Crates	Value	Palm B'ch Co.		Val. cr.
			Av. Val	Per crate	
Oranges	41,519	\$ 67,267	\$1.64	\$1.19	
Lemons	1,660	14,600	8.30	2.36	
Limes	2,200 bu.	2,243	1.02	1.74	
Grapefruit	55,510	163,860	2.97	1.31	
Avocado Pears	458	2,573	5.62	2.72	
Pineapples	12,093	24,752	2.04	1.07	
Bananas	6,535 bun.	2,169	.31	.68	
Mangoes	7,935	8,676	1.20	1.04	
Jap. Persimmons	76	222	3.00	1.51	
Sapindifol	345	574	1.66	1.28	
Guavas	7,877	7,901	1.01	.37	

There are two reasons for this supremacy in the quality of Palm Beach county fruit, if we may assume that price indicates quality, namely: The fruit is naturally better than the average of the State, and the people who buy it are better able to pay the higher prices. The people who buy it are the 25,000 wealthy tourists and their friends who go to Palm Beach county each winter.

Assuming that value indicates quality, the leading grapefruit counties in Florida are as follows, the figures indicating value per crate as given in the Agricultural Statistics of counties growing 10,000 crates and up:

Palm Beach, \$2.97; St. Lucie, \$2.89; Lake, \$2.69; Dade, \$2.43; Hillsborough, \$2.36; Orange, \$2.21; Manatee, \$2.10, and Pinellas, \$2.

It is significant that the four leading counties are either on the east coast, or nearer the east coast than the west coast.

The logical deduction from these figures is that it is more profitable to grow grapefruit on the east coast of Florida than on the west coast or anywhere else in Florida, and proof is what most of us are after.

The grapefruit land of Palm Beach county consists of a ridge lying between the fresh water lakes in the eastern part of the county and the true Everglades in the west part. This ridge is about thirty miles long and five miles wide. Practically all the ridge has been sold in the past eighteen months to over nine thousand people and the property of the Minnala Farms Company is the largest single body of land unsold on the ridge. This Company's land is on the highest point of this ridge, is ready now for the plough, and we are offering until August 5th, twelve ten acre tracts to Southeast Alabama people. Our terms are easy. Maps, surveys, soil, and topographical photographs, and all other necessary information to make an intelligent selection can be seen at the office of our sales agent, L. G. Biggers, in the News Publishing Co., building. We advise and early selection, as the best tracts go first.
